Towel Rail Radiators

DeLonghi towel rails are an ideal complement to any central heating system. Available in either chrome or painted finish they warm up towels as well as providing some heating for the room. Commonly used in bathrooms they are also very useful in laundry areas or kitchens.

Electric elements can be fitted to the towel rails so they can be used without a central heating system. It is more cost effective however to install the towel rails as part of your system.

Models Available

DeLonghi Elegance Towel Rails

Elegance towel rails are a high quality, stylish accessory to any central heating system. Traditionally-styled bar towel rails, they are highly efficient as towel warmers and driers and the rails add a gentle, warm ambience to the bathroom. They are available in both Chrome and White finishes and matching fittings can be used. Both styles come in Parentesi (curved) and Linea (straight) and these options are held in stock at Central Heating New Zealand.

DeLonghi Agata Towel Rails

These flat panel towel rail radiators are an extremely modern style that look good in any home. Available in Parentesi (curved) and Linea (straight) they come standard in white. The colours options are limitless however as the towel rails can be painted to match the interior decor of your home if you wish.
