

CLASS 1

Product name:

Building Product Information Sheet

| Ball Valve with integral filter | | |
|---|---|--|
| Draduct line (the product line | a from which the product is sustamicadly | |
| Product line (the product line from which the product is customised): Ball valves | | |
| bull valves | | |
| Product description and its in | ntended use (measurements, materials, usage): | |
| all valve with built in Superfilter for rapid system isolation and cleaning of filter without drain down. | | |
| Enables compact inst | tallation. | |
| F x F ball valve with i | ntegral filter. | |
| Available in ¾", 1"(25 | 5mm), 1 ¼" (32mm) | |
| Not for use with pota | able water. | |
| Product identifier (if application) | ble): | |
| VBALLFTVL34, VBALL | LFTVL1, VBALLFTVL114 | |
| | ☐ Aotearoa New Zealand ☐ Overseas | |
| Legal and trading name of the Tecnovielle | ne manufacturer(s): | |
| Techovielle | | |
| Legal and trading name of th | ne manufacturer(s): | |
| Central Heating New | Zealand Ltd | |
| Address for service: | | |
| STREET NAME 52 Pilkington | Way suburb Wigram | |
| | | |
| CITY, COUNTRY Christchurch | h, New Zealand | |

| Email Address: | info@centralheating.co.nz | |
| Phone No. (if applicable): | 03 357 1233 | |
| NZBN (if applicable): | 9429036621231 | |

Relevant Building Code clauses:

Clause B2 DURABILITY:

Performance B2.3.1 (b)

Clause F2 HAZARDOUS BUILDING MATERIALS:

Performance F2.3.1.

Clause G10 PIPED SERVICES:

Performance G10.3.1 (a).

Statement on how the building product is expected to contribute to compliance:

Clause B2 DURABILITY:

Performance B2.3.1 (b) 15 years. Ball valves are moderately easy to access and replace if installed in accordance with the instructions and product requirements.

Clause F2 HAZARDOUS BUILDING MATERIALS:

Performance F2.3.1. Ball valves meet this requirement and do not present a health hazard to people.

Clause G10 PIPED SERVICES:

Performance G10.3.1 (a). Ball valves are intended for a non-potable piping system, which contributes to meeting this requirement when used in heating systems.

- options for compliance set out in section 19 of the Act (regulations, acceptable solution, verification method)
- standard or technical document that describes the performance of the building product or the relevant specifications to which the building product was manufactured.
- physical properties of the building product
- how the building product is intended to be used.

Limitations on the use of the building product:

Please refer to the ball valve technical information provided on the Central Heating NZ website.

The hot water heating system must not be connected to the potable water supply system.

Design requirements that would support the use of the building product:

The heating system design, including the layout of the pipe, must be carried out by a suitably qualified designer.

Please refer to the ball valve <u>technical information</u> provided on the Central Heating NZ website.

Design must consider the requirement of building code clause H1 for pipework and heating design.

Installation requirements:

Please refer to the ball valve technical information and installation instructions provided on the Central Heating NZ website.

The system installation must be carried out by a licensed and qualified tradesperson, in accordance with the design supplied by the suitably qualified designer.

A detailed as-built plan and site photos shall be provided upon the conclusion of installation showing location of all associated pipework and the ball valve location on a heating schematic.
